

SHUBHAM BADGUJAR

+91 9511974562 | shubhambadgulari076@gmail.com | Jalgaon, Maharashtra | [Github](#) | [LinkedIn](#)

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering | CGPA: 8.13

Government College of Engineering, Jalgaon | 2022 – 2026

Senior Secondary (Class XII) | Percentage: 79%

M.J. College, Jalgaon | 2020 – 2022

Secondary (Class X) | Percentage: 97%

L.N.S.V, Jalgaon | 2019 – 2020

TECHNICAL SKILLS

Programming: C, C++, JavaScript, Python

Libraries: Node.js, Express, Pandas, Numpy, Matplotlib

ML& Deep Learning: OpenCV, Scikit Learn, Tensorflow, Keras

Cloud & DevOps: Git, Github, AWS and GCP basics

Databases: MongoDB, SQL, NoSQL, Neo4j

Gen AI / NLP : RAG Pipelines, Langchain, Embedding

EXPERIENCE

Data Science Intern | Paarsh Infotech Pvt. Ltd.

Jan 2026 – Jun 2026

- Designed and developed an AI-powered Food Donation Management System featuring predictive demand forecasting, automated hotspot mapping, and real-time freshness scoring, optimizing end-to-end resource allocation across **6** distinct operational modules.
- Engineered a Python-based synthetic data generation framework that produced **50K+** interconnected records with **70+ features**, alongside an end-to-end CRM analytics platform tracking **10+** core KPIs to drive production-grade AI training and data-driven decisions.

Infosys Springboard Internship | Infosys

Sep 2025 - Nov 2025

- Constructed robust relational database schemas and backend logic using Core Java, **OOP** architecture, and JDBC to establish seamless data connectivity between live web applications and database engines.
- Programmed and debugged basic web architectures Developed by **Java** and **SQL**, isolating code exceptions to minimize runtime errors and enhance overall application processing efficiency.

PROJECTS

KrishiBandhu: AI-Powered Agriculture Platform

Jan 2026

- Launched an AI-driven web platform built with **ReactJS** and **Node.js** delivering a real-time crop health analysis matrix, predictive weather forecasts, and a localized agri-product marketplace.
- Integrated **NLP** workflows for an AI chatbot and voice-navigation system, streamlining farmer-to-market data retrieval and enhancing platform accessibility.
- Deployed a fine-tuned Deep Learning diagnostic engine that accelerated crop treatment pipelines, reducing manual intervention by **40%** and improving early disease detection.

Arxiv Research Paper Assistant | MiniProject

March 2025

- Built a **Streamlit**-based **RAG** pipeline to fetch ArXiv papers, store metadata in **Neo4j** Graph database, and process user queries using **FAISS** and the **Meta Llama 3 8B** model (Groq API) for Question Answering.
- Automated text extraction and ranking using **Sentence-BERT**, enabling efficient retrieval of relevant research papers.
- Streamlined academic research workflows with **NLP**-powered querying and future research direction suggestions.

Mini ERP: From Demand to Delivery | Odoo Hackathon Finalist

Jun 2026

- Architected a centralized Mini ERP platform with **7+** integrated modules and **30+** REST APIs, automating inventory workflows for **Make-to-Stock(MTS)** and **Make-to-Order (MTO)** production to streamline cross-functional operations across **5** role-based user tiers.
- Orchestrated BoM-driven manufacturing pipelines and real-time stock reservation workflows, establishing end-to-end traceability via structured inventory ledgers and work orders, reducing production lead time by **20%**.

RELEVANT COURSEWORK

Mathematics: Linear Algebra, Statistics, Probability, Quantitative Aptitude

Certifications : Algorithmic Graph Theory & Data Structures (**Elite** NPTEL - IIT Kharagpur), Python Foundation (Infosys Springboard), Data Analytics, Programming in Java (**Silver**-NPTEL)

ACHIEVEMENTS

- Ranked Top **1.5%** globally across Kaggle competitions: **45th/4,331** (Predict the Introverts) & **63rd/3,367** (Bank Dataset Binary Classification).
- Achieved **1st** Runner-up at the National-level CodeSphere Hackathon, competing against top-tier technical teams.
- Secured **AIR 5** among engineering teams nationwide in the **SAE AeroTHON 2024** aviation design competition.
- Led the **COMPACT** Student Association and **AI Club** at GCOEJ as **President** and **Captain**, organizing technical events and peer workshops to boost student participation in AI and software engineering.
- Coordinated National Events: Managed logistics and operations for **Tech Carvaan 2026**, **AI Buildathon**, and **CodeSphere 2.0**, hosting **700+** participants.
